TECHNICAL SKILLS

- **Languages:** JavaScript, TypeScript, Python, HTML5, CSS3
- **Frontend Technologies:** React.js, Next.js, React Native, Redux, Tailwind CSS
- **Backend Technologies:** Node.js, Express.js, REST APIs
- **AI & LLM:** OpenAI API, Anthropic API, AI SDK, RAG, Vector Databases, Prompt Engineering
- **Cloud & DevOps:** AWS, SST, Docker, Linux/Unix
- **Databases:** PostgreSQL, MongoDB, DynamoDB, Firebase
- **Tools:** Git, GitHub, Postman

EXPERIENCE

Software Development Engineer – [Cloudify ApS](#) | June 2024 – Present

- Reduced operational costs by 70% through implementation of self-hosted solutions.
- Delivered and maintained 15+ client projects with reliable releases and ongoing support.
- Developed automation pipelines, analytics dashboards, and AI-powered applications using OpenAI, Anthropic, and AI SDKs, improving customer workflows and reducing manual effort.
- Led end-to-end feature development, debugging, and production issue resolution across multiple products.

Software Developer – Cloud Civil Technologies | July 2023 – May 2024

- Developed and maintained a construction ERP platform for planning, workforce, and expense tracking.
- Built modules for resource allocation, task management, and expense tracking.
- Built a real-time chat system using WebSockets, improving client satisfaction by 30%.

React Native Developer – TGG Technologies Pvt Ltd. ([ChfMart](#)) | April 2023 – June 2023

- Led React Native development, improving UI/UX and increasing downloads by 15% in the first month.
- Built real-time location tracking and delivery monitoring features, significantly improving customer visibility into order status.

PROJECTS (Projects may load slowly due to free-tier hosting. Please try refreshing)

Growza - Multi-Tenant Ecommerce SaaS Platform | [Live Demo](#)

Tech Stack: Next.js, Tailwind CSS, Node.js, PostgreSQL, Supabase

- Built a multi-tenant SaaS ecommerce platform enabling merchants to create and manage online stores.
- Implemented authentication, product management, order workflows, and payment integration.
- Designed scalable store architecture supporting multiple independent storefronts.

Xpense - Personal Finance & Expense Tracking App | [Demo](#)

Tech Stack: Expo, Firebase Firestore, Firebase Authentication, React Native

- Built a cross-platform personal finance application using React Native and Firebase.
- Implemented expense categorization, analytics dashboards, and timeline-based transaction tracking.
- Added group expense splitting and multi-currency support for collaborative travel budgeting.
- Integrated Firebase Authentication and Firestore for secure cloud synchronization.
